RE: Permitting for White Rock Mining Operation,  
Vernal, Uintah County, Utah

I received a telephone call from Mark Lindsay on July 2, 1986. He mentioned he had visited a mine property in White Rocks where active mining is occurring. (White Rocks is about 20 miles northwest of Vernal in Asphalt Ridge.)

He spoke to the operator and he said that they have a contract for 20,000 tons of tar sands. This tar sands is being sold to Uintah County.

I checked Division files to determine if a permit had been granted. I found no number, and therefore no file or permit. Please advise.
